

## PLAN SYMPATHETIC STRIKE IN NEW YORK

LABOR LEADERS MAY TIE UP CITY'S INDUSTRIES TO HELP CAR MEN.

### GOMPERS SUMMONED TO CITY

President of A. F. of L. Called From Vacation—Car Service Is Nearly Normal.

(Associated Press)  
New York, Sept. 9.—Union labor leaders of national and state prominence were called into the New York transit situation today with the announcement by local strike organizers that within 24 hours a conference will be held here, the outcome of which might be a tie-up of the city's industries which employ men affiliated with the American Federation of Labor.

Committee Empowered.  
Samuel Gompers, president of the American Federation of Labor, who is on a vacation in Maine, has been asked to hurry here and the Central Federated Union announced after an all night meeting that a committee had been appointed which is empowered to call a general sympathetic strike in all trades if it is considered necessary to help the striking car men.

It is announced that the companies will seek injunctions to restrain interference. The police reported conditions as normal and an improvement on the surface systems. A number of minor disorders, with 18 arrests, are reported.

New York, Sept. 9.—With subway and elevated trains being operated apparently on normal schedule, traction officials insisted that New York's strike has been broken.  
Fifty per cent of the "green cars" of the New York Railways company's surface system were running, the company announced. Union leaders claim that 7,500 men are on strike.

Of course, the University of Illinois leads off, with an enrollment of seventeen students from Dixon. Dixon is very proud of its long list of progressive, aspiring young people, which is given below. Of course, there may be some names that have not been obtained. A number of the students will leave the coming week, while the majority of the eastern colleges have delayed their opening until the first of October because of the prevalence of poliomyelitis.

## STEWART PEOPLE BOOST WHETSTON

CARAVAN OF AUTOS MAKES TRIP AROUND LEE COUNTY FOR HIM.

About fifteen automobile loads of boosters from Steward, Ill., carrying sixty or more residents of that town and vicinity, stopped in Dixon for some time today to tell the people of this city to vote for Judge Samuel Whetston for coroner. Judge Whetston is a candidate for the republican nomination for coroner.

The Steward booster expedition made a tour of the county today in the interest of their candidate. On the back of the cars were banners saying: "Vote for Judge Whetston, the Grand Old Man." The loyalty of the Steward people to their candidate is a splendid tribute to the character and qualities of the Judge and will undoubtedly do him a lot of good at the primary election.

THIRTY NEW CASES OF MARITAL TROUBLE FILED FOR HEARING.

### TIME FOR SERVICE EXPIRED

New Cases Had to Be Filed Before Midnight Friday—Attaches Were Busy.

The divorce mill of the September term of Lee county circuit court will have to work overtime if all the new divorce and separate maintenance causes which have been filed are brought to trial during the term. Of 47 new chancery cases docketed 30 are for divorce or separate maintenance.

The time for filing new cases for trial during the coming term of the court, which convenes a week from Monday, expired at midnight Friday the last day being an exceptionally busy one for the circuit clerk's and sheriff's office forces. Thirty-nine new common law cases were filed for the term, none of which is of great public interest.

In addition there will be a number of criminal trials beyond doubt. Several alleged violators of the criminal laws of the state have been bound to the grand jury and it is understood the officials are planning to have the inquisitorial body investigate other alleged violations of the statutes.

## BOTH ALDER AND PAGE BOUND OVER

LEGAL BATTLE OVER CLAMMING RIGHTS, BOOTLEGGING, ETC. IN TWO COURTS.

### MAY WIPE OUT INDUSTRY

If Page Establishes Right To Middle of Stream Adjoining His Farm.

In the case of the People vs. Robert Alder, charged with bootlegging, before Justice A. M. Hanneken this morning, Alder was bound over to the grand jury. The other case of bootlegging against Alder and the case charging him with illegal fishing were both dismissed by the plaintiff.

The civil suits will be prosecuted vigorously by Tom Page, who is having legal difficulties with clammers who want to work over the clam beds in the river in front of his farm above Dixon. Mr. Page claims that he owns the river to the middle of the stream in front of his property and that the clammers belong to him also. He has enjoined the clammers from working there and the injunction case will be tried in the October term of the Ogle county circuit court. Mr. Page has also been bound over to the Ogle county grand jury on a charge of shooting a gun at Alder, who was in a boat on the river in front of the Page farm.

This legal battle is attracting considerable interest, for the rights of the clammers are being seriously involved. If Page proves his claim and can keep the clammers off his part of the river, other farmers along the streams of Illinois can do the same and the clamming business would be practically wiped out. Clam shells are bringing something over \$30 per ton at present and the work is very profitable.

## Lowden Warns Voters That Underwood Tariff Law Must Be Wiped Out Soon

Chicago, Sept. 8.—Chicago's "Great West Side," with its mixture of many bloods and its combinations of wealth and poverty, drew Frank O. Lowden tonight. He spoke at four meetings and the cordial greetings from his audiences showed that he was among friends.

"You are busy people over here on the West Side," said the colonel at the West Side Coliseum. "You have many factories that give employment to hundreds of thousands of men and women. Thanks to the war, there is work for nearly everybody. It's a different situation from what you faced, many of you, two years ago, before the war started, and thereafter for a time before the European demand began to stimulate our industries."

"Do you recall those 'hard times'?" That Winter preceding the war when the streets of the West Side were thronged with the thousands that wanted work, which in many instances was not to be had because factories had closed down, unable to compete with cheap European manufacture because the Demo-

## BRINTON IS ENDORSED IN COOK CO.

ORGANIZATION BY VOTE OF 25 TO 7 BACKS DIXON MAN FOR GOVERNOR OVER DUNNE.

### DUNNE IS SURPRISED

ACTION OF COMMITTEE THIS AFTERNOON TAKES WIND OUT OF HIS SALES.

### COMMITTEE PRAISES BRINTON

Messages from Chicago today brought good news to the supporters of Col. Wm. B. Brinton in his candidacy for Governor. The Roger Sullivan forces have come out in the open for the Dixon man and all the weight of that powerful faction of the democratic party in Cook county and downstate will be thrown in to the fight in Colonel Brinton's favor.

(Associated Press)

Chicago, Sept. 9.—The Cook County Democratic committee at a special meeting today endorsed William B. Brinton of Dixon as a candidate for the Democratic nomination for Governor by a vote of 25 to 7.

The 7 who voted against the endorsement were allied with the faction led by former Mayor Carter Harrison. Roger C. Sullivan attended the meeting.

To Get Solid Support.  
As a result Brinton will receive the solid support of the regular Democratic organization at the primaries. Friends of Gov. Dunne have expressed surprise at the action.

Resolution.  
Mr. Brinton was endorsed in the following resolution:

The most important thing the democratic party has to do this year is to re-elect President Wilson. Every other consideration is subordinate to this. Local nominations everywhere—therefore, cities, counties, districts or State—ought to be the strongest nomination that can be made. One weak spot in an important place on the ticket as a whole will cost Wilson thousands of votes, as well as endanger the rest of the ticket. Illinois is a doubtful state. Wilson may win without us, but with Illinois for him he will surely be elected. Therefore it is vital to democratic success in the nation, as well as in Illinois and Cook county, that the state ticket be headed by the strongest available candidate for governor. With all this in mind and after a careful canvass of

## SUCCESS OF A COBBLER WHO DEFIED AN ADAGE

Pete Ragolli's Work in Pictures  
Proves That it Isn't Always  
Wise to Stick to Your Last.

### FEATURE OF "THE SHINE GIRL"

You know the old saying—"Some are born great, others achieve greatness and still others have it thrust upon them." Pete Ragolli comes under the last head.

Pete is a 74-year-old Italian cobbler with a little shop in the basement of a Mulberry street tenement in New York. Until a few weeks ago fame had never blinked an eyelash at him and it looked like "tap, tap, tap," with his hammer until the end of his days. But Dame Fortune is an erratic lady. She saw that Pete was a good cobbler, that he worked hard and was honest, so she crooked her finger to William Parke, the Thanhouser director, who was casting "The Shine Girl," the Pathe Gold Rooster Play. Mr. Parke didn't see the lady but something led him to the Ragolli shoe repairing emporium. He was looking for an Italian cobbler "type" and in Pete he found it. Not only did he persuade Pete to leave his shop for a while to work in pictures but Mrs. Ragolli as well.

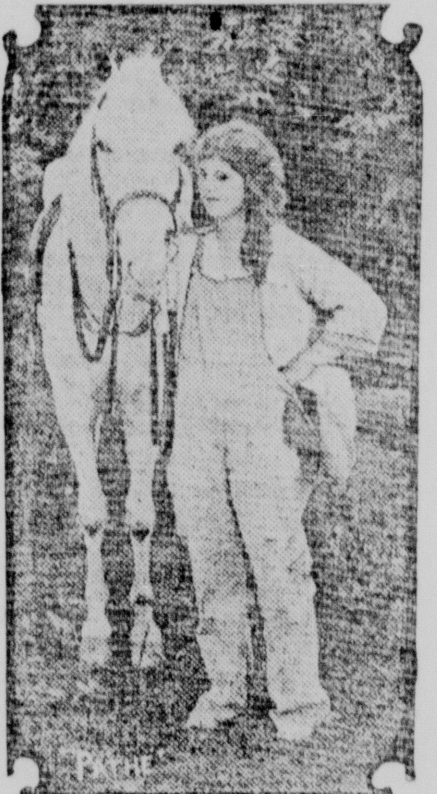

Pete liked working in pictures. No young tyro ever worked more enthusiastically than he. His ardor was infectious. No scene that he appeared in required a retake. Pete proved to be a true actor despite the fact that for fifty years he had been serving humanity along humble lines.

When you see Pete's honest old wrinkled face in "The Shine Girl" you'll like him, for he plays his part as to the manner born (as indeed he was) and he very evidently is enjoying himself.

### ROLIN COMPANY MADE UP OF YOUNGSTERS; THE PRODUCERS HOLD THE PALM FOR YOUTH.

It is probable that the producers of Pathe's "Luke" comedies have a personnel that is about the youngest in the business. Manager Dwight Whiting is only twenty-four. Director Hal Roach is the same age. Bebe Daniels and Gertrude Short are just under sixteen and Pat Lampton, who tips the scales at four hundred pounds, is only seventeen. Harold Lloyd, the famous "Luke," is only twenty-one, and "Snub" Pollard but twenty-two. It is interesting to note that since most of the players are under age, their parents have to sign their contracts.

### GLADYS HULETTE

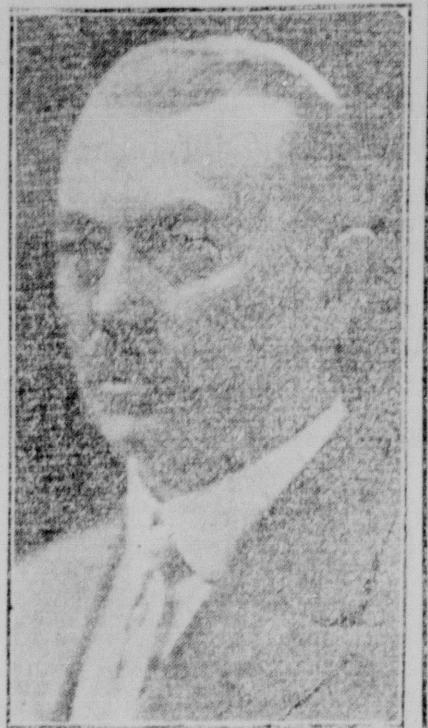

Precautions to check the infantile paralysis epidemic in New York are reaching even farther than the authorities intended. Ethel Mary Oakland and Tula Belle, two of Thanhouser's child actresses, have to carry health certificates every time they leave the studio to go out on a location. That was expected.

But now Gladys Hulette, one of the Thanhouser stars, who appears in "The Shine Girl," released through Pathe, has been forced to get a certificate. Miss Hulette is making a picture in which she plays the part of a girl of twelve. Many of the scenes are being taken over in New Jersey. For several days Miss Hulette, who motored to the location fully made up, was stopped every time she entered a ferry house and forced to explain that she really was more than twelve years old. One day she was delayed until William Parke, her director, arrived and got her out of the difficulty. He suggested that she get a health certificate in order to prevent further delays, and she did.

Now she presents her documents and passes the guards unblinded.

## WILSON PRAISES SESSION'S WORK

Humanity Is Benefited and Defense Assured.

### NEARLY TWO BILLION SPENT

Revenue Bill Provides for Vast Sum to Carry Out "Preparedness" and Other Projects—Wilson Goes to Capitol in Closing Ceremonies and Signs Emergency Bill.

Washington, Sept. 9.—President Wilson issued the following statement on the adjournment of congress. "A very remarkable session of congress has just closed, full, as all recent sessions of the congress have been, of helpful and humane legislation which constitutes contributions of capital importance to the defense, the economic progress and the wholesome life of the country.

Regrets Rail Legislation Unfinished.

"It is to be regretted that the session could not have continued long enough to complete the program recently projected with regard to the accommodation of labor disputes between the railways and the employees, but it was not feasible in the circumstances to continue the session any longer, and therefore only the most immediately pressing parts of the program could be completed.

"The rest, it is agreed, has merely been postponed until it can be more maturely deliberated and perfected. I have every reason to believe that it is the purpose of the leaders of the two houses, immediately upon the re-assembling of congress, to undertake this additional legislation. It is evident that the country should be relieved of the anxiety which must have been created by recent events with regard to the future accommodation of such disputes."

Congress to Raise \$1,858,384,485.

The money appropriated at this session is \$1,626,439,210, which with obligations and authorizations for the future makes the total \$1,858,384,485.

These figures, announced in speeches by Representatives Fitzgerald, New York, Democrat, and Gillett, Massachusetts, Republican, were defended by the former and attacked by the latter as half a billion dollars greater than any session of a Republican congress. The increase, according to the Democrats, is just about the sum of the bills for "preparedness."

Wilson Signs Emergency Bill.

President Wilson, who went to the Capitol for the closing formalities, signed the emergency revenue bill at 9:25 o'clock, in the presence of Senator Simmons, chairman of the finance committee, and Representative Rainey of the ways and means committee.

The President held a reception in his room as a line of senators and representatives passed through while he sat at the table signing bills. To Senator Simmons the President expressed gratification over the passage of the revenue bill and its many legislative features. He said, however, that he greatly regretted the failure of the Webb bill, to provide for establishment of American collective selling agencies in foreign countries. Senator Simmons also expressed his regret that the measure had failed, but said it would be pressed at the next session.

## ATLANTA DIVORCE CENTER OF SOUTH

JUDGE SAYS THAT HOME AND CIVILIZATION ARE BEING THREATENED

### MORE STRINGENT LAWS ASKED FOR

175 Divorces in Month Giving Georgia City Name of "Reno of South"

Atlanta, Ga.—Fulton county jurists are alarmed at the appalling progress of the divorce evil. Judge John T. Pendleton, one of the most eminent Justices of the state, declares that home and civilization is being threatened by this danger.

The occasion of his comment was upon the adjournment of the last term of court during which he had presided over the epochmaking number of 175 divorces. Never in the city's history has there been a parallel of this number.

"If the divorce evil continues to spread at this speed," say other leading jurists, "Atlanta will soon be known as the Reno of the South, a title it may now well deserve."

The divorce figures almost equal the marriage records of the month. For years Judge W. D. Ellis of the civil division Superior Court, before whom is heard the bulk of Fulton's divorce cases, has sought to bring about the enactment of laws that would strike at the divorce evil thru more stringent regulation of marriage.

He has had the able support of Judge Pendleton in this, and at the next session of the legislature both jurists will make personal appeals to the Assemblymen in their fight.

In regard to divorce conditions, Judge Pendleton addressed the jury of his division when he dismissed that body after it had served on the 175 divorces.

"You probably have noticed," he said, "that fully four-fifths of the cases handled by you this week represented couples who have married in the last four or five years. This simply demonstrates that people are leaping wildly into marriage without giving it proper consideration, and that they are willing to quit whenever they get ready."

"The great majority of these cases, you noticed, have been of the most trivial character. Husbands and wives have grown to have slight consideration for marital ties. Divorces come nowadays on the slightest provocation. The time has come to do something to check this evil that is undermining the home and civilization."

Cruelty and neglect were the most frequent grounds in the 175 divorces. Many charged drunkenness. Infidelity, too was often charged.

Judge W. D. Ellis has made an exhaustive study of the divorce question with the purpose of making a fight against it in the legislative halls. He has found that Atlanta has become a Mecca for divorce seekers and recently said:

"A very large number of the divorce suits brought to this circuit are in cases where the defendants are alleged to be nonresidents; that is to say, who have never lived in this state, or where the defendant was a resident and was charged with desertion."

"Atlanta has become quite a haven for this character of would-be divorces."

Referring to the ease with which divorces are obtained in Georgia, Judge Ellis said:

"Crud treatment, so far as my observation goes, is by far the greatest ground for divorce. That is a broad and comprehensive term. Our Supreme Court has defined cruel treatment to be willful infliction of pain either bodily or mentally, upon the complaining party, to the extent of injury to the life, limb or health of such complainant."

"This broad charge and description, left to the jury and to the courts, backed up by the absence of any defense, leaves the question too much open to sympathy aroused by the harrowing details of domestic infelicity, as presented by the apparently distressed wife or the apparently afflicted husband."

"In Georgia the questions are left to the discretion of the jury. The wife gets on the witness stand and testifies that the husband is a brute or a drunkard or a deserter. The verdict falls to allow him the right to marry again. At the next term of court he comes in with a petition for the removal of his disabilities, and tells his side of the case and demonstrates that his wife is a termagant and he himself so inoffensive, so childlike, that no divorce ought to have ever been granted her, and that he should have been the one divorced."

"Statistics show that the proportion of divorced persons in Georgia who remarry is constantly on the increase, showing that divorce is less respectable than formerly, and now quite respectable."

William F. Dubert, resident of Jackson county, Iowa, has been granted a patent on a new safety device for automobiles. By the use of this device the machine may be easily held in the center of the road, regardless of ruts or other obstacles, and the front wheels may be locked up at any angle.

### NEVER SEE REAL MONEY IN "THIS MAN'S TOWN"

Single Citizen Owns Entire County and Company Script is Only Medium of Exchange

Pensacola, N. C.—This is said to be the only town in the country where no United States currency is used. Pensacola is entirely owned by one man. He owns the mines the lumber camp, the farm lands and the thirty four miles of railroad which leads from a small junction into Pensacola. In fact Dr. Aldridge is the owner of the whole county.

The entire business of the place is carried on with company "script." That is when a man's earnings are paid him, they are given him in the form of a due bill, which is referred to as "script." The script is the same as cash and negotiable at the various stores, all of which are owned by the Aldridge Company.

When members of a picture play company recently arrived here they paid cash for purchases at the stores, they received their change in script, and later the cashier of the company had to travel fifty miles to a small town in Tennessee to get a check cashed in order to pay the living expenses.

There are people born in Pensacola and living there since their birth that have never seen United States currency, and were almost afraid to accept it when the movie actors paid their bills for the rooms and board.

Soda water is sold at the drug stores on Wednesday and Saturday of each week. With the exception of the movie company's mail, letters seldom arrived addressed to any of the native residents, and the small post office force, consisting of an aged clerk in a merchandise store, owned by the Aldridge interests, was hard put to it each day when dozens of letters arrived for the film folk.

The leading actress asked one of the residents if they ever deposited their surplus script in the bank.

"No, indeed," he replied, "we never have any surplus."

### HUNGRY PORKERS DEVOUR COW

Chased by Mules, Bossy Takes Refuge in Hog Pen

Nacogdoches, Tex.—A very unusual thing happened at the home of John Baker, living near Appleby, a few days ago when some hogs feasted upon a cow while she was in a position from which she could not extricate and defend herself.

The accident came as a result of the cow being shut up in a lot with a couple of mules. The mules with characteristic trait gave her chase and in an effort to get away from them she attempted to jump a cross fence which separated a hog pen from the lot, and in so doing got her hind foot hung in the fence with her head over in the hog pen. In this position the hogs assaulted her, and getting a taste of blood they proceeded to make a hearty meal from the body of their victim.

### Vending Device Patented

A. Gonick of Red Oak, Iowa, has received a patent on a vending machine which he invented during last winter. For President  
CHARLES E. HUGHES  
For Vice President  
CHAS. W. FAIRBANKS  
For Governor  
FRANK O. LOWDEN

LOWDEN AND LOCAL OPTION.

When Charles E. Hughes was a candidate for governor of New York he made no pledges to the voters other than that he would not use his patronage in an effort to influence legislation. This in Mr. Hughes' case did not mean that he would not seek to have an influence in legislation, and after he was elected if the general assembly in its enactments did not measure up to his standards he personally went to the people and with their strength behind him whipped the legislature into line.

This political history is of special interest when one reads the statement by Colonel Lowden, candidate for governor, in expressing his position on the local option question. Here is what Colonel Lowden says in his platform: "I shall sign a county option bill if passed by the general assembly and will make no attempt to influence its members in its favor or against it."

It has been urged in some quarters that Colonel Lowden is a candidate of the wet forces, but that unequivocal statement, voiced in like language with that which Governor Hughes gave to the people of New York, contradicts the story. The Lowden position is clear on the subject and he has made an open pledge not to use his influence for or against local option legislation. A fair, square deal is what the local option leaders have asked in the past. That scores of dry leaders take no stock in the effort to question the Lowden attitude on this subject is proven by a study of the forces behind the Lowden candidacy. Man after man could be named now supporting Colonel Lowden who were dry members of the legislature when the present local option bill was given life.—Jacksonville Journal.

THE POPULAR CANDIDATE.

The sentiment for Frank O. Lowden in Lake county for governor seems to be such that there is no doubt but what Mr. Lowden will be given a handsome vote in this county. The fact is, it looks as though Mr. Lowden will be about 3 to 1 in the county, despite all efforts to advance the candidacy of one other candidate in this county. Mr. Lowden is by far the most popular candidate in the race, and his record for the republican party of Illinois has been such that he will be given the support of the county, which, when counted later, after the primaries, will show a strength probably never before displayed by any candidate for governor. Mr. Lowden's experience as a statesman, his ability as a business man, and his work which he has done for the republican party all combine themselves to justify his request for the nomination as governor.

When Mr. Lowden is elected governor of Illinois the people of the state will have no reason to regret that he has been made the choice of the voters. That he will fill the office with credit to himself and with credit to his people is a foregone conclusion.—Waukegan Sun.

BARR SHOULD BE NOMINATED.

Lee county should give Richard J. Barr of Joliet, a big majority at the primary election next Wednesday. The republicans of the state should nominate him, and we believe they will. Mr. Barr is a candidate for the office of Attorney General. He is the one downstate candidate for that office that the party should unite upon. He is a lawmaker and a lawyer of splendid ability and his record as Mayor of Joliet and State Senator proves him to be everything that the citizens of this state desire. As Attorney General he would be absolutely fair, highly efficient and exceedingly valuable to the citizens of the state. Make a special effort, Mr. Voter, to cast your ballot for Richard J. Barr for Attorney General. You will find his name third on the list of candidates for that office.

COLONEL BRINTON'S CANDIDACY.

Governor Dunne refused to sit in the delegation at St. Louis during the democratic convention because Roger Sullivan controlled the convention, and farther back than that Governor Dunne stumped the state for Stringer. His opposition to Roger Sullivan has been so pointed that it is rather safe to assume that Sullivan and his forces will back Col. W. B. Brinton of this city in his candidacy for the democratic nomination for Governor against Gov. Dunne.

The democrats of Lee county will surely make it a point to get to the polls on primary day, next Wednesday, and register their vote for the Lee county candidate.

EMMERSON FOR SECRETARY OF STATE.

L. L. Emerson of Mt. Vernon will be a strong addition to the republican state ticket if he is nominated for Secretary of State at the primary next Wednesday. Mr. Emerson is a high grade man and a true republican. He is the sort of candidate the voters of Lee county are glad to support.

Our Vulcanizing is Guaranteed on Money Back Basis. Money Back Tire Shop No. 4.

The situation with every board and precinct organization in Chicago and Cook county, we believe the interests of democracy will be best served by the nomination of Hon. William B. Brinton for governor. Mr. Brinton has been a genuine, consistent and active democrat in every kind of weather since away back beyond the time when he helped manage the Altgeld campaign. He is an experienced, successful business man. He favors the budget system of administration of state finances and reorganization of governmental machinery to eliminate waste, check extravagance, keep down taxes and put all the state business on a business-like basis. His experience is a guarantee that he can accomplish these things. Mr. Brinton is pledged to the largest and fullest measure of home rule for Chicago. In our judgment, the nomination of Mr. Brinton will hold for the democratic ticket many thousands of votes that otherwise would be alienated in the governorship and for the most part driven away from the rest of the ticket.

Therefore, be it resolved by the Democratic Committee of Cook County, that we endorse the candidacy of Hon. William B. Brinton of Dixon for the Democratic nomination for Governor of Illinois and we urge all Democrats to vote for him at the primary election next Wednesday.

Sullivan and Brinton delivered addresses at a mass meeting of Cook county democrats at Forest Park today, while the Harrison democrats held a rally at Riverside Park.

Gov. Dunne's leaders snuffed the air last night and began to suspect that something was simmering in the Sullivan kettles.

Right in Dunne's strongest Chicago territory, William B. Brinton of Dixon was endorsed for governor. They were the Third and Sixth wards, the only two which have a Dunne committeeman, and the Brinton endorsements were given by the ward organizations. Politicians saw much significance in the action. The Third ward is the home of William L. O'Connell, the governor's right-hand man, while the Sixth is the bailiwick of John P. Gibbons, chairman of the Dunne-Harrison organization.

At the meeting in the Third ward, one of Jacob Lindheimer's lieutenants, in moving that Brinton be given the support, submitted resolutions reciting that "Governor Dunne was responsible for the election of Senator Sherman, who has been the worst critic of President Wilson."

STEPHEN H. CUMMINS ANNOUNCES PLATFORM FAVORING FARMERS

CANDIDATE FOR CONGRESSMAN-AT-LARGE, THIS LAWYER-FARMER ISSUES A CLEAR CUT STATEMENT TO REPUBLICANS.

Stephen H. Cummins, lawyer of Springfield, Ill., candidate for the Republican nomination for congressman-at-large, believes that today is the day for clear cut policies. Vague generalities such as "A friend of the people," "The farmers' candidate," and other high-sounding phrases might have been vote winners in days gone by, but he believes the voter today, especially in the rural districts, wants to know exactly what a candidate proposes to stand for.

Mr. Cummins has a very definite platform, and asks for the votes of those who agree with him that these things that he stands for are for the betterment of the country as a whole.

STEPHEN H. CUMMINS, AN OLD PARTY WORKER AND LOYAL REPUBLICAN, ENDORSES WOMAN SUFFRAGE, RURAL CREDIT SYSTEM, ETC.

Mr. Cummins endorses and promises to vote for:

- (1) Endorsement of Full Suffrage for women.
- (2) Budget System.
- (3) Protective Tariff.
- (4) Adequate Preparedness.
- (5) Republican National Platform in its entirety.
- (6) Farm Loan System of Rural Credits.

Mr. Cummins' Record.  
Because the electors should know the caliber of the man who seeks office at their hands, Mr. Cummins opens the book of his life and shows a clean record. Not only in an entire book does he not blot or smudge appear, Stephen H. Cummins was born on a farm, lived the life of the farmer, and knows the needs of the farmer. Today he owns and operates two modern farms in Sangamon county, and gives them close attention despite his extensive legal practice.

During the twenty-eight years as a lawyer, Mr. Cummins has handled some of the largest and most important cases of litigation in Illinois legal records. When the Attorney General of the State of Illinois needed able assistance he has called on Stephen H. Cummins. No man of small ability ever is called to such cases. Despite the wonderful success Mr. Cummins has had as a lawyer, at no time has he hesitated to turn from a case where a large fee was forthcoming to defend a man who had little of the world's goods.

Mr. Cummins knows the needs of the country districts and his knowledge is not an academic one. What he knows of the farmer's needs he has gained through experience on his own farms and through association with the hard-working farmer with his fellow farmers and neighbors. The chap who poses as a "farmer's friend" and doesn't know how many kernels of corn go to the hull may make pretty speech but it takes a man with knowledge of just how tired one can be after a good day's plowing to really know the farmer's problems.

Mr. Cummins' Republicanism.  
For years Mr. Cummins has been a "wheelhorse" of the Republican party in Sangamon county, state and national elections. When an estate was needed on the platform and on the stump Stephen H. Cummins was called on—and he worked and fought for Republican success, never flinching for defeat, never demanding praise for victory. It was his support that helped elect Lawrence V. Sherman to the senate, and Mr. Sherman has personally thanked him for his assistance.

Two years ago Mr. Cummins entered the race for congressman-at-large and although the dark horse and a late entrant for the position he pulled a surprising number of votes. Chicago favors him perhaps more than any "down state" candidate for they know him to be fair. If the rural communities turn out and work for this man who is pledged to their interests Mr. Cummins can be nominated. The question of ability does not enter here for Stephen H. Cummins has gained his present prestige through ability. A desire to serve his country comes natural to Mr. Cummins as a family trait, and the late Senator Cummins of Iowa, the best friend the farming interests ever had in the senate, is Mr. Cummins' own cousin.

## WOMEN VOTE DOWN HUGHES RESOLUTION

Mrs. Bass and Dr. Shaw De-feat Mrs. Raymond Robins.

Atlantic City, N. J., Sept. 9.—The National American Woman Suffrage association convention defeated by an overwhelming vote a resolution that the association in the present national campaign support only those candidates for national offices who pledge their support to the passage of the Susan B. Anthony resolution for a federal constitutional amendment. The resolution was offered by Mrs. Raymond Robins of Chicago, and a number of other delegates, and was regarded as a move in the interest of Governor Hughes.

"I denounce this resolution as not merely partisan, it is non-Wilson," Mrs. Bass, an Illinois delegate, shouted.

The meeting was in an immediate uproar, while scores of women shouted for the floor.

"I come from a state where a Democratic legislature passed the suffrage bill and a Democratic governor signed it," Mrs. Bass continued.

Dr. Anna Howard Shaw threw her weight against the resolution. Her influence defeated an attempt to put the association on record regarding its choice.

Otherwise Vincent will draw \$500 a month, of which \$450 must be paid to his wife, from the income of the estate for the rest of his life and at his death his share of the estate will go to his two sisters.

He has stood firm for the standards of this party, and willingly has done much party work. He has endeavored to meet the voters all over the county, both in the country and in town, but has found it impossible to meet them all. ## ANOTHER ATTEMPT TO PUT OVER THE WATERWAY GRAB?

DENEEN'S LAST HOPE IS HULL—THREE TIMES FOILED, WILL THE HAND SUCCEED IN ITS FOURTH ATTEMPT TO GRASP THE PRIZE?

(By Atty. A. C. Warner)

A few years ago, a project was planned by certain politicians of this led by him. No one knows why De-state to deepen the channel of the Illinois river at great expense for the ostensible purpose of cheapening transportation between Chicago and the Gulf of Mexico. They finally succeeded in inducing the Legislature to call an election for the purpose of submitting the question to the people authorizing the Legislature to issue twenty million dollars of bonds for the purpose of raising money for the river improvement. Charles S. Deneen and William Lorimer both worked with great energy to accomplish the result of carrying the measure through at the polls. At that time Charles S. Deneen was Governor of the State, and William Lorimer was Congressman. Both of these men made speeches throughout the State, urging and entreating the voters to cast their ballots for the bond issue.

At the election the polling places in Chicago were completely under the control of the politicians who were enlisted in favor of the issue of the bonds. The bond issue was carried by the Chicago vote, and largely by the vote of men of foreign nationalities whose votes were counted for the bond issue, but whether actually cast by the voters in that form no one will ever know. It is sufficient to say that Lee county cast a large majority against the bond issue, and that the farmers of the state who had investigated the subject generally opposed it.

After the vote had been taken, and declared to be in favor of the issue of the bonds, Charles S. Deneen immediately began proceedings in the legislature by which he could take control of the issue of the bonds and would appoint the officers through whom the money would be spent. William Lorimer had other plans, however, and he immediately commenced a series of counter movements, by which the handling of the fund would be under his control instead of that of Deneen. This led first to a mild friction between Deneen and Lorimer, which finally culminated in open hostility. The political fall of Lorimer was directly due to the attacks which were the result of this hostility.

The bitterness of feeling which existed in the Legislature during the Lorimer-Deneen conflict was such that the Legislature refused to pass any act authorizing the issue of the bonds. After the final adjournment of the Legislature at their regular session, Charles S. Deneen adopted every possible method to bring about an attitude in the Legislature, which would enable him to obtain the passage of a law permitting the issue of the bonds. He called a special session of the Legislature, for the purpose of again attempting to get a favorable vote. While this was taking place a great deal of discussion had been going on around the state, and thousands of men who had been hoodwinked into voting at the election for the bond issue, by the combined sophistry of both Deneen and Lorimer, notified their members of the Legislature that the scheme was a futile and worthless waste of money, and as a sequel, the Legislature met and declined to pass the bill authorizing the issue of the bonds. Charles S. Deneen waited a few weeks, and again called another special session of the Legislature, demanding and practically ordering the Legislature to authorize the issue of the bonds.

The Legislature again refused his demands. A tremendous amount of the taxpayers' money was foolishly spent in the expenses of these two extra sessions of the legislature, called for under the orders of Charles S. Deneen, for the deliberate purpose of driving through the Legislature such an act as would give him authority to spend the twenty million dollars received from the bond issue, through

Why, then, should Charles S. Deneen and a certain clique of his Chicago associates still watch for every opening by which they can force this useless expenditure upon the taxpayers of Illinois?

There are rumors circulating freely that when the vote had been declared successful upon the issue of the bonds certain Chicago politicians acquired title to considerable real estate along the Illinois River. Part of this real estate was so situated that it would be required for the location of dams that were planned to be built by the state, and a part of it was located near the proposed dams, where it could be subdivided into town lots for the building up of cities adjacent to the points where the dams should be constructed. Whether these rumors have any foundation in fact, cannot now be proven. One thing is certain, and that is, that a certain clique of Chicago politicians with whom Deneen is affiliated have used every possible means within the last five years to keep alive the hope of getting the twenty million dollars of bonds issued.

They have gone through the farce of sending a mimic boat through the Illinois River loaded with a few sacks of salt, claiming that they had thus proven the great value of the Illinois River as a means of transportation. While this pantomime was going on, the great Mississippi River, for nearly a thousand miles south of Cairo, was flowing in its deep and broad current to the sea, undisturbed by its old time fleet of steamboats, which were once the pride of the west. Shippers have the audacity to say that the reason why the Mississippi River has lost its traffic is because, considering the slow time, the risk of fire, the risk of grounding boats when blown by heavy winds out of the channel, and the extra handling of freight necessary for loading boats, it is cheaper to ship by rail. The Chicago clique headed by Charles S. Deneen has not lost its keen hunger for that twenty million dollar bond issue. They have been defeated in the control of Chicago politics, and as a last resort they have secured a candidate for Governor, whom they are trying to foist upon the voters. They have very cleverly worked a cunning stratagem by representing that their candidate is an anti-liquor man. They are conducting a campaign, concealing their real object, which is to revive and carry through the legislature the bond issue.

Having in the beginning of the bond project acquired the vote of thousands of men who were deceived by their representations, the same clique is now attempting to get votes for the Deneen candidate, claiming that their principles are anti-whisky and anti-clique. They do not say anything about the bond issue, and yet the issue of the waterway bonds is the one only mark upon which their eyes are fixed, and the only beacon light which they hope to see in the distance.

Remember that Morton D. Hull is the candidate of the Deneen clique, and do not be deceived by his anti-liquor claims into voting for a man selected and supported by the Deneen interests.

## Chicago's Factions Threaten Now to Destroy Your Party

Greedy Chicago bosses, selfish misuse of party organization and violent factionalism imperil the Republican Party of Illinois.

Lowden represents the Lundin-Thompson effort to extend the Chicago "City Hall" blight over entire state.

Hull was picked by West and Deneen to finance their Cook County machine for another era of factionalism. A vote for him is a vote for Lowden.

The only faction-free Republican candidate for Governor is FRANK L. SMITH of Dwight. He bears no Owners' Association brand. He is the only real down state candidate. Both of his opponents are from Chicago, which has already had the governorship 12 years.

Smith is neither boss-ridden nor a machine rider. He fights for party success and good government, not for factional advantage or personal spoils.

Smith is a successful business man, a true Republican, a dependable leader. And there isn't a tainted dollar in his personal or political bank account.

Smith, and Smith only, can unite all factions and lead to certain victory. Measured by any standard, he is the only Republican candidate for Governor who has a RIGHT to run with Hughes.

Citizens of Illinois, Smith's fight for the Republican party and Good Government is your fight. Will you help?

FOR THE HONOR OF ILLINOIS, go to the polls on Wednesday Sept. 13, vote for FRANK L. SMITH and save the party from blatant bosses and greedy factions.

## SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## THE MYSTERIOUS FOE

A Series of Stories About Some Illinois Men, Women and Children. Edited by the Illinois State Association for the Prevention of Tuberculosis

### TWELFTH EPISODE.

Mrs. Brown has the reputation in her neighborhood of being a "good housekeeper."

On at least fifty of the fifty-two Monday mornings in each year, she flings her family "washing" to the breeze before any of her neighbors.

She washes her lace curtains at frequent intervals and it is a common sight to see her busy shaking rugs about an hour after breakfast each day.

Her kitchen floor is so scrupulously clean that it is considered almost a "high crime" to walk across it with muddy feet.

She "cleans house" religiously each spring and fall. Her husband and her children live in awe of her very cleanliness.

The gruff old man who lives only a few doors away, has been known to take careful aim, hit an old tomato can with a quid of tobacco and say: "Mrs. Brown is all right but she's too darn clean."

If anyone even with perfectly good intentions, should say to Mrs. Brown: "You are very dirty about your sweeping," she would bristle up with indignation and probably hurl several choice bits of language at her accuser. Should the remark be several times repeated, she might some time come to the conclusion that "there is something in it."

But until not one but several of her friends muster up enough courage to talk to her like all friends should talk to each other, she undoubtedly will continue to sweep as the picture shows her.

Of course Mrs. Brown is a woman of common sense. She knows that she raises a lot of dust when she sweeps. She can see it. Sometimes it almost chokes her and she has learned to wear a dust cap while she is doing this little chore.

She knows, too, that soon after she finishes sweeping, she will go over all the furniture with a dust cloth because she knows that a powdery deposit of dirt is being scattered over every thing in the room.

Most times she uses a dry cloth to dust with because wet cloths mar the finish on the furniture. So part of the dirt is pushed off the furniture back into her carpets.

What Mrs. Brown hasn't yet learned is that "dry sweeping" which almost always raises a dust is decidedly a dangerous practice. Germs of diseases are so small that they often float around in the air on minute particles of dust. Some partly dried spit from a consumptive may be deposited on Mrs. Brown's carpets some day and she will stir it up with her broom and then breathe it.

## OUR NUTTY NOVELETTE

### ODDS BODIKIN.

'Twas in days of old, when knights were cold, Adolph Armoplate, a courtly knight, and withal a handsome dog, bestrode his fire steed and galloped down the plain. 'Twas a right bully day for a scrap.

Elaine Ethelbert, beautiful to either eye and as prime as a venison steak on the broll, leaned from her tower top. Her 24-karat golden hair hung down many a foot further than she did, and the expression on her proud features was passing pitiful. If one expression may be used about another. "A fair lady in distress!" carolled Adolph, and cast about him for means of succor. Not a means was visible to the naked eye.

With rare presence of mind, that he used instead of brains, Adolph wove a rope ladder out of tall grass that grew hither and yon, and climber even to the beautiful lady's bower.

"Odds bodikin!" he cried lustily. "I have saved you, lady in distress. 'Small need,' she cried haughtily. "I am in 'dis dress, 'tis true, but, as for the rest, I am but drying my 24-karat golden locks in the sun ere descending to spit the deer for the boarders."

## The Porcupine Editor

A kiss deferred maketh the sweet-heart sick.

Whenever a man discovers himself making love to a pretty woman he thanks heaven that the Recording Angel doesn't keep a phonograph.

Buttons, buttons, who has the buttons? Well, the naval officers have them now; but after the New York girl has had a chance at them the fleet will have to depend on pins.

There are moments when even the most cynical man feels a pang of brotherly sympathy for his wife's first husband.

Love, like any other stimulant, ceases to have that exhilarating effect after it has become a steady diet.

No doubt a married man's idea of future punishment is having to hock his wife's dress up the back while she tries to tell him a funny story with her mouth full of hairpins.

The average man spends 10 months thinking it over, 10 minutes in proposing and 10 years in wondering why he did it.

## HUMOR of the DAY

### Only One Letter.

She was giving orders at express rate, for they were married; and he, as a rule, the most meek and submissive of men, was, like the proverbial worm, beginning to turn.

"Do you think," he inquired, "that you rule the whole of the universe?"

"No," she snapped; "but I rule the first letter of it."

### As Far As He Could Go.

"I," she said, "can trace my ancestry back to armor and shirts of mail."

"I started to trace my ancestry back once," he replied, "but my wife made me stop when I got to shirt sleeves and overalls."—Judge.

**RUSSIANS HALT BULGARS' DRIVE**

Three More Towns, However, Lost in Roumania.

**ALL ARE BLACK SEA PORTS**

Roumanians and Russians Continue to Push Way into Hungary—Sofia Admits Loss of Orsova—100 Transylvanian Towns Are Seized by Advancing Entente Allies.

London, Sept. 9.—The Bulgarian invaders of Roumania swept northeastward along the three ports of Baltik, Kavarna and Kali Arka. The seizure of the fortress of Dobrich, in the same sector, which was unofficially announced several days ago, is also claimed in an official report from the Bulgarian war office.

Simultaneous with this smashing invasion of southeastern Roumania, the Russians, moving south through the province of Dobrudja, met the advancing Bulgars in force for the first time and the most terrific battle of the Roumanian campaign is in progress along a 100-mile front between the Danube and the Black sea. A Rome report announcing the entry of the Russians into this struggle declares fighting is particularly violent around Baltik. The Bulgar claim to the capture of this town indicates that the Russians were repulsed. Berlin confirms this deduction.

Bucharest Drive Cheked. Silence from Sofia and Berlin on the progress of the German-Bulgar force which swept through Turutran (Turiukal) in the drive on Bucharest, is interpreted as indicating a temporary check to this most serious menace to Roumania.

Meanwhile the Roumanian invasion of Transylvania continues with the steady progress which has marked it since the entry of Roumania into the war. The occupation of Orsova, an important Hungarian town on the Danube, is conceded by Sofia. According to Roumanian dispatches forwarded through Switzerland this capture makes a total of more than 100 Hungarian cities, towns and villages taken in their spectacular advance. The same dispatches assert the Roumanians were warmly welcomed by the population of the invaded territory, the majority of whom are of Roumanian blood.

Analysis of the situation, with the Russians finally in concerted action with the Roumanians against the Bulgar drive in Dobrudja, makes the outlook on Roumania's southern frontier more hopeful for the new belligerent while the progress through Transylvania relieves any fear of serious Roumanian losses on that front.

Vienna Admits Russians Are Gaining in Galicia.

London, Sept. 9.—Halicz, the southern key to the main railroad line to Lemberg, is holding out against the most desperate attacks of the Russians, but the Galician drive is progressing on other sectors in favor of the Czar's forces, terrific blows against the Austro-German front. The Russian gain, officially announced by Petrograd, is confirmed by official reports from Vienna, which admits another retreat "to prepare positions."

On the northern sector of the Russian front, however, the troops of Prince Leopold have checked the Russian drive across the Dvina and are counter attacking. Petrograd announces the repulse of all such attacks.

**HOLDS SHAVING NECESSITY**

Brief Declares Whiskers Must Come Off, Same as Currying Mule.

Des Moines, Sept. 9.—Shaving is not labor, but a necessity, and the state has no right to deny a man the privileges granted a mule, according to a brief filed in the state supreme court here by attorneys for a Davenport, Iowa, barber, arrested on complaint of being open on Sunday.

"If a man can curvy a mule on Sunday, he has a right to have his own head curried, in a manner of speaking," says the brief.

**CORROBORATION**

Of Interest to Dixon Leaders For months Dixon citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Dixon residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after year had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Dixon reader.

B. A. Worley, blacksmith, 2nd Ave., Dixon, says: "The action of my kidneys was irregular and annoying, and my back ached after using Doan's Kidney Pills, the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

OVER TWO YEARS LATER Mr. Worley said: "Whenever my back gets lame and sore and I need a kidney medicine, I use Doan's Kidney Pills. They give me relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Worley has twice publicly recommended. Foster-Milburn Co., Props. Buffalo, N. Y.

President Promises to Prevent  
Rail Strike in Future.

**LEGISLATION IS OUTLINED**

Wilson Will Not Allow Hughes to Get  
Away With All the Capital in Rail  
Strike Settlement—Bills for Labor  
Disputes Proposed for Next Ses-  
sion.

Washington, Sept. 9.—President  
Wilson definitely committed himself  
and the Democratic leaders in con-  
gress to a program of legislation de-  
signed to remove further menace to a  
nation-wide transportation tie-up.

In a statement commending the  
work of congress during the session  
which closed Friday morning the  
President declared that the leaders of  
the senate and the house proposed to  
pass bills for the accommodation of  
labor disputes between the railroads  
and their employees at the next ses-  
sion, which begins in December.

The President felt impelled to make  
this pledge to the country because of  
the criticism visited upon him for  
abandoning the principle of arbitra-  
tion in connection with the recent  
differences between the railroads and  
the brotherhoods.

**Won't Let Hughes Get Away With It.**

He did not deem it expedient to  
permit Candidate Hughes to make  
capital with the railroad investors  
and other people with small savings  
by remaining silent and thereby giv-  
ing the impression that he had drop-  
ped his plan to secure legislation de-  
signed to prevent a recurrence of the  
recent grave emergency.

At first he thought of explaining  
his attitude in a speech, but finally  
decided to put it forth in a concise  
statement:

**Provides Campaign Material.**

The President's promise in the  
above statement will be dwelt upon  
during the campaign, not only by him-  
self, but by Democratic orators  
throughout the country. The Presi-  
dent will reiterate that he will urge  
congress in his annual message to  
pass bills covering the following im-  
portant matters:

First.—Compulsory investigation of  
railroad disputes along the lines of  
the Canadian commission plan.

Second.—Increase in the mem-  
bership of the interstate commerce com-  
mission.

Third.—Vesting authority in the  
President in case of military neces-  
sity to draft railroad employees for  
service.

Fourth.—Requiring arbitration de-  
cisions to be made of record in courts  
of law and enforced by an impartial  
tribunal.

**BRITISH LOSE 2 STEAMERS**

Effort Had Been Made to Sink One in  
New York Harbor.

London, Sept. 9.—The British  
steamer Strathay and Ellerman Line  
steamship Tagus have been sunk. The  
crew of the Strathay was saved.

The Strathay sailed from New  
York Aug. 22 for Havre. She was 370  
feet long of 4,428 tons gross and was  
owned in Glasgow. While at her dock  
in New York in July, 1915, an attempt  
was made to destroy her, fire bombs  
being found concealed in the hold.  
The Tagus was of 927 tons gross.

Counter Attacks by Germans at Ver-  
dun and Somme Repulsed.

London, Sept. 9.—Smashing Ger-  
man counter attacks against posi-  
tions captured by the French between  
Bony and Chaulnes, south of the  
Somme, were the feature of the fight-  
ing on the western front Friday. Paris  
reports the failure of four massed at-  
tacks but without success. Berlin of-  
ficially admitted the French advance  
on the Vaux-Chapitre-Chenois sector,  
announced by Paris two days ago.

**MAKE RENT BUY A HOME--Wage Earner's Chance**

ON next Saturday, Sept 16th, at 1:30 p. m., on the premises, I will sell at  
Public Auction to the highest and best bidder, a neat, comfortable six-  
room cottage which I have just placed in good condition and repair—a nice, at-  
tractive home for the lucky buyer.

Terms:—One hundred dollars cash. (\$25.00 on day of sale and remainder within the follow-  
ing week.) Balance payable in monthly instalments of \$7.00, same as rent, with 5 per cent. in-  
terest on deferred payments. As inducement for larger down payment \$25.00 will be deducted  
from purchase price for every \$100.00 added to cash payment, and in same ratio for less sums.  
Possession given on completion of cash payment.

The property is the newly painted slate-and-white cottage about two blocks west of wagon  
factory in West End Addition known as the May place. New cistern. Best drinking water in the  
city in wells near by

Sale absolute; doubtless a bargain for somebody. Expect it to go much below value. Why  
not pay for a home in a few years with your rent instead of going on as you have been doing  
with nothing to show at the end that you can call your own. No one is more entitled to a home  
than you are. Go about it and get one, and be independent. Here is your opportunity to pur-  
chase at your own price.
